

# NUTRI-Lamb

SUPPLEMENT

Lambs on a high grain feedlot diet or on a supplementary feeding program will often be deficient in the essential vitamins and minerals required to optimise growth, performance, reproduction and maintenance.

NUTRI-Lamb Supplement is a nutritionally designed formulation for ready inclusion in high grain feedlot diets or supplementary feeding programs for sheep and lambs.

NUTRI-Lamb Supplement provides a balanced profile of vitamins, trace elements and minerals. The combination of vitamins, minerals and lasalocid sodium (Bovatec®) enables sheep and lambs to obtain more energy from any ration, improving average daily gain and overall feed efficiency.

## Nutritional Analysis

Vitamin A	MIU	4
Vitamin D	MIU	0.8
Vitamin E	MIU	0.15
Cobalt	GM	0.25
Iodine	GM	0.25
Manganese	GM	30
Sulphur	GM	600
Zinc	GM	40
Selenium	MG	100
Potassium	GM	1150
Calcium	GM	3800
Salt	GM	4000
Lasalocid	MG/KG	33
Zinmet®	GM	670

Store product in a cool, dry place.

**PACK SIZE**  
**20KG**  
BAG

**RATE OF USE**  
5% OR 50KG/TONNE OF  
FINISHED FEED

**DIRECTIONS**  
MIX WITH GRAIN

**How should the supplement be mixed with grain?**

The most effective way to mix NUTRI-Lamb Supplement with grain is via a vertical or ribbon mixer. This will ensure even distribution of the product through the mix. Alternatively, if a mixer is not available, product can be added at a proportional rate while the grain is being augered, ensuring care is taken to maintain even distribution.

**What buffers are included in the product?**

NUTRI-Lamb Supplement does not contain any buffers or compounds to help control or prevent acidosis. We recommend getting in touch with an AAN representative to discuss the addition of buffers to a feeding program.

**What Rumen Modifiers are included in the product?**

Lasalocid sodium (Bovatec®), a registered ionophore, is included in NUTRI-Lamb Supplement as a rumen modifier. It works to shift rumen fermentation patterns to improve feed conversion efficiencies and increase average daily gain. Lasalocid sodium has also been shown to decrease the incidence of coccidiosis.

**Can NUTRI-Lamb Supplement be fed to any other animals?**

This product is purposely designed for feeding to sheep and lambs and feeding to other animals, such as equines or dogs, is not recommended.
